INTRODUCTION

The purpose of the 1986 Annual Planning Information publication is to provide planners with labor market information that will be helpful in the development of service delivery area plans. The publication is divided into fourteen sections according to service delivery area. An appendix follows the last service delivery area section.

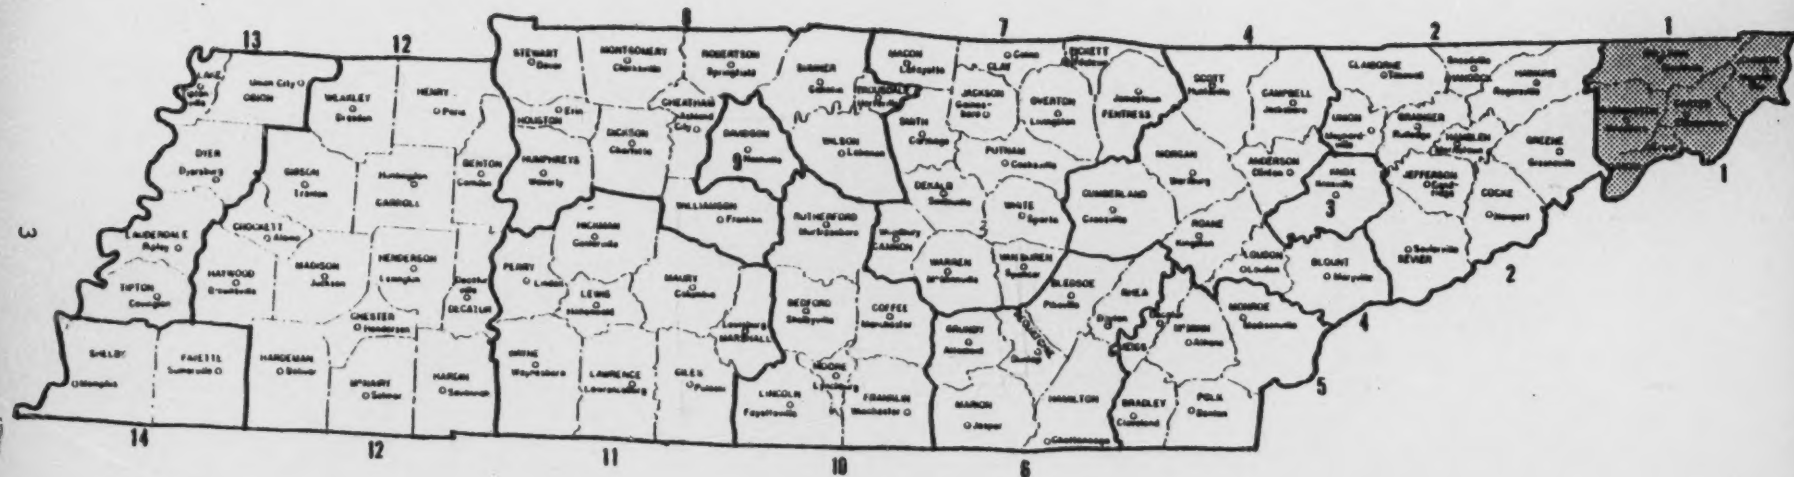

Each service delivery area section contains a description of the area and a narrative of highlights and conclusions which is based on information found in the seventeen tables following each narrative. The tables contain data on population, labor force, high school graduates, wages and income levels, occupational projections, unemployment insurance claimants, work disability status, and veterans. A detailed list of tables follows this introduction.

The appendix is divided into two sections. The first section contains references for the tables. The second section is a list of names of the Research and Statistics field analysts and the Service Delivery Area(s) (SDA) for which they are responsible. If further information is needed concerning this publication, the field staff person or the Labor Market Information Unit in the central office should be contacted.

Note: Material in this publication is in the public domain and may be reproduced without permission of state government. Please credit the Tennessee Department of Employment Security, Research and Statistics Division, and cite the name of the publication.

SDA 1

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 1

Service Delivery Area 1 is located in upper east Tennessee and is made up of Carter, Johnson, Sullivan, Unicoi, and Washington counties. Together these five counties encompass an area of 1,543 square miles.

Much of Service Delivery Area 1 is mountainous terrain characteristic of the Appalachian region. These mountains have had a continuous influence on the region's settlement and economy beginning when the first settlers, arriving from the northeast, were forced by the rugged terrain to enter the area via the Cumberland Gap. Even now a new industry's choice of location is affected by the terrain. Most industries find that the area's valleys, which contain level land and major rivers, are the most desirable sites for industrial development. The valleys are also more conducive to efficient transportation systems.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 1

The economic picture for Service Delivery Area 1 improved in 1984. Total nonagricultural employment increased from 104,380 in 1983 to 107,410 in 1984 or 2.9 percent. Manufacturing employment increased 2.1 percent from 38,250 to 39,370. The manufacturing industries with the largest increases were in stone, clay and glass, primary metals, and lumber. The largest decreases occurred in electrical machinery and transportation equipment. Nonmanufacturing employment increased from 66,130 to 68,040 or 2.9 percent. The industry with the largest increase was trade. The only decreases occurred in contract construction and in services.

Total population in Service Delivery Area 1 is projected to be 313,695 persons in 1985. Non-Hispanic whites will make up 97.1 percent or 304,500 persons. Non-Hispanic blacks will number 6,177 or 2.0 percent of the total, and other races will make up 0.4 percent or 1,278 persons. Hispanics will comprise 0.6 percent of the total or 1,741 persons. Males will make up 48.4 percent or 151,763 persons, and the female population will be 161,932 persons or 51.6 percent. Persons 16-19 years old will make up 7.0 percent of the total population or 21,908. Persons 20-24 years old will number 26,813 or 8.5 percent. The largest concentration of work-age persons is 49,272 in the 25-34 age group, which makes up 15.7 percent of the total population.

The labor force will total 140,198 persons. Whites who are not of Hispanic origin will make up 97.3 percent or 136,476. Non-Hispanic blacks will be 2,550 or 1.8 percent. Other races who are not

Hispanics will be 521 or 0.4 percent, and persons of Hispanic origin will be 651 or 0.5 percent. The labor force will consist of 83,036 males or 59.2 percent of the total and 57,162 females or 40.8 percent. The age group with the largest proportion of the total is the 25-34 age group with 37,990 persons or 27.1 percent of the total.

The unemployment rate for Service Delivery Area 1 is expected to be 7.4 percent or 10,388 persons. The unemployment rate for whites will be 7.3 percent. Blacks will have an unemployment rate of 10.8 percent. Other races will have a rate of 6.1 percent, and Hispanics will have an unemployment rate of 10.5 percent. Males will have a slightly lower unemployment rate of 7.3 percent than the 7.6 percent rate for females. The highest unemployment rate of 19.4 percent will be experienced by the 16-19 age group with the 20-24 age group recording the second highest rate of 11.9 percent. Black males in the 16-19 age group will experience the highest rate of any group at 49.0 percent.

Persons drawing unemployment benefits totaled 22,625 for the period of July 1, 1984, through December 31, 1984. Whites comprised 95.9 percent of the total, and females made up 51.7 percent of the total. Clerical and sales occupations had the greatest proportion of the total unemployed with 20.9 percent while farming, fishing, and forestry occupations reported the fewest claims with 1.2 percent of the total.

Employment projected by occupation is expected to increase 5.9 percent between 1984 and 1990 or grow from 141,250 to 149,630. Service occupations will show the largest increase of 12.7 percent

from 14,680 to 16,540. Craft and kindred occupations will experience the smallest growth of 2.1 percent from 23,370 to 23,860.

The persons who were below the poverty level in 1983 were estimated to be 67,540. Whites made up 84.4 percent or 57,033 persons, and blacks totaled 2,291 or 3.4 percent of the totals. Estimates for other races and Hispanics were not available.

High school graduates totaled 2,535 in 1984 for Service Delivery Area 1. The number of graduates continuing their education was 1,285 or 50.7 percent. Approximately 1,160 graduates entered the labor force or 45.7 percent. The total number of dropouts was 468.

The veteran population in Service Delivery Area 1 as of March 31, 1984, was 42,710. Vietnam-era veterans comprised 29.2 percent of that total or 12,490.

The average employment of total establishments in Service Delivery Area 1 that were covered by the Tennessee Unemployment Insurance Law was 104,901 with an average yearly wage of \$15,995. The average covered employment in the services industry was 16,961 with an average yearly wage of \$14,456.

SDA 2

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 2

The counties of Claiborne, Cocke, Grainger, Greene, Hamblen, Hancock, Jefferson, Sevier, and Union make up Service Delivery Area 2. This region is located in the northeastern portion of the state and is bordered by the states of Kentucky and Virginia.

This area of the state is noted for its gently rolling landscape and majestic mountain peaks. The valleys below house a variety of economic activities including coal mining in Claiborne County, the world's largest burley tobacco market in Greene County, and the beautiful resort area of Gatlinburg in Sevier County.

A large number of lakes in the region provide excellent recreational facilities as well as adequate electric power to meet the needs of a variety of manufacturing activities.

Among the kinds of products manufactured in the region are furniture, textiles, chemicals, apparel, fabricated metal products, paper products, and electrical components.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 2

The economic picture for Service Delivery Area 2 improved during 1984. Total nonagricultural employment increased from 80,080 to 82,550 or 3.1 percent. Manufacturing employment increased from 35,890 to 36,980 or 3.0 percent. The manufacturing industries with the largest increase were apparel; stone, clay, and glass; and nonelectrical machinery. The only manufacturing decreases occurred in printing and publishing, furniture, and all other nondurable goods. Nonmanufacturing employment increased from 44,190 to 45,570 or 3.1 percent. The largest increases occurred in transportation, communication, and public utilities; finance, insurance, and real estate; and all other nonmanufacturing. The only decrease occurred in government.

Total population in Service Delivery Area 2 is projected to be 321,459 persons in 1985. Non-Hispanic whites will make up 97.0 percent or 311,753 persons. Non-Hispanic blacks will total 6,955 persons or 2.2 percent. Other races will comprise 0.3 percent or 1,016 persons, and Hispanics will number 1,736 persons or 0.5 percent. Males will make up 48.9 percent of the total population or 157,071 persons. Females will total 164,388 persons or 51.1 percent. The largest concentration of work-age persons is 50,608 in the 25-34 age group, which makes up 15.7 percent of the total. Persons 16-19 years old will total 22,775 or 7.1 percent.

The 1985 labor force will total 137,684 persons. Whites who are not of Hispanic origin will make up 97.1 percent of the total or 133,659 persons. Non-Hispanic blacks will be 2,975 persons or 2.2

percent of the total. Other races who are not Hispanic will total 375 persons or 0.3 percent. Hispanics will total 675 persons or 0.5 percent. Males will make up 59.6 percent of the total or 81,995 persons. Females in the labor force will total 55,689 persons or 40.4 percent of the total. The age group with the largest proportion of the labor force will be the 25-34 year olds with 27.9 percent of the total or 38,421 persons.

The unemployment rate for Service Delivery Area 2 is projected to be 10.6 percent in 1985. The unemployment rate for Non-Hispanic whites will be 10.5 percent. The unemployment rate for blacks who are not Hispanic will be 14.0 percent. Other races who are not Hispanic will experience an unemployment rate of 8.2 percent. Hispanics will have 12.8 percent of their total labor force unemployed. Males will have a lower unemployment rate of 9.0 percent compared to the 12.8 percent rate for females. The highest unemployment rate of 25.1 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of 60.3 percent will be experienced by black males who are 16-19 years old.

Employment projected by occupation is expected to increase 4.2 percent from 104,740 in 1984 to 109,160 in 1990. Service occupations will experience the largest growth of 11.8 percent from 12,180 to 13,610. The occupation with the smallest growth rate will be operatives with a rate of 1.2 percent from 21,540 to 21,800.

Persons drawing unemployment benefits totaled 25,383 for the period of July 1, 1984, through December 31, 1984. Whites comprised 96.4 percent of the total, and females made up 51.5 percent of the total. Benchwork occupations had the greatest proportion of the

total with 19.8 percent. Farming, forestry, and fishing occupations had the smallest proportion of the total with 1.1 percent.

The number of persons who were below the poverty level in 1983 was estimated to be 87,294 in Service Delivery Area 2. Whites made up 85.7 percent of the total or 74,806 persons. Blacks totaled 2,689 persons or 3.1 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 2 during 1984 totaled 3,582. The number of graduates continuing their education was 1,591 or 4.4 percent. The approximate number entering the labor force was 1,539 or 43.0 percent. The number of dropouts during 1984 was 713.

The veteran population in Service Delivery Area 2 as of March 31, 1984, was 33,440. Vietnam era veterans numbered 10,350 or 31.0 percent of the total.

The annual average employment of all establishments in Service Delivery Area 2 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 78,195 with an average yearly wage of \$12,514. The average covered employment in the services industry was 11,152 with an average yearly wage of \$10,227.

SDA 3

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 3

Service Delivery Area 3, which consists of Knox County, serves as the main regional center for banking, wholesale and retail trade, higher education, and health services for east Tennessee and parts of Virginia, Kentucky, and North Carolina.

Knox County's economy is heavily weighted toward nonmanufacturing with approximately 80 percent of total employment in nonmanufacturing and 20 percent in manufacturing. This employment mix tends to insulate Knox County from recessionary pressures. The Knox County area is a center for government, services, and finance, insurance, and real estate activity. These industries are relatively unaffected by downturns in the general business cycle.

The vast recreational potential of Knox County is an important resource of the area. Knox County's proximity to the Great Smoky Mountains National Park, which is within a day's drive of approximately 50 percent of the total U.S. population, and to other historical sites and convention facilities has led to the development of a vigorous tourist trade. Tourism and recreation and their related business activities have expanded significantly in recent years and are expected to continue to expand in the future.

The 1982 World's Fair held in Knoxville has generated some economic benefits. Firms may be drawn to the area by national publicity, the revitalized central business district and highway system, and the development of the Technology Corridor.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 3

The economic picture for Service Delivery Area 3 improved during 1984. Total nonagricultural employment increased from 131,420 to 135,450 or 3.1 percent. Manufacturing employment increased from 23,560 to 25,050 or 6.3 percent. The manufacturing industries with the largest increase were fabricated metals, transportation equipment, and lumber. The largest manufacturing decreases occurred in petroleum products, and apparel. Nonmanufacturing employment increased from 107,860 to 110,400 or 2.4 percent. The largest increases occurred in contract construction and services. The largest decreases occurred in government and finance, insurance, and real estate.

Total population in Service Delivery Area 3 is projected to be 335,697 persons in 1985. Non-Hispanic whites will make up 89.9 percent or 301,891 persons. Non-Hispanic blacks will total 29,055 persons or 8.7 percent. Other races will comprise 0.7 percent or 2,183 persons, and Hispanics will number 2,562 persons or 0.8 percent. Males will make up 48.0 percent of the total population or 161,168 persons. Females will total 174,523 persons or 52.0 percent. The largest concentration of work-age persons is 57,608 in the 25-34 age group, which makes up 17.2 percent of the total. Persons 16-19 years old will total 25,928 or 7.7 percent of the total.

The 1985 labor force will total 158,187 persons. Whites who are not of Hispanic origin will make up 90.9 percent of the total or 144,393 persons. Non-Hispanic blacks will be 11,878 persons or 7.5

percent of the total. Other races who are not Hispanic will total 1,097 persons or 0.7 percent. Hispanics will total 819 persons or 0.5 percent. Males will make up 56.4 percent of the total or 89,502 persons. Females in the labor force will total 68,685 persons or 43.2 percent of the total. The age group with the largest proportion of the labor force will be the 25-34 year olds with 28.6 percent of the total or 45,478 persons.

The unemployment rate for Service Delivery Area 3 is projected to be 5.8 percent in 1985. The unemployment rate for Non-Hispanic whites will be 5.4 percent. The unemployment rate for blacks who are not Hispanic will be 10.2 percent. Other races who are not Hispanic will experience an unemployment rate of 16.1 percent. Hispanics will have 7.7 percent of their total labor force unemployed. Males will have a lower unemployment rate of 5.5 percent compared to the 6.2 percent rate for females. The highest unemployment rate of 15.3 percent of any age group will occur in the 16-19 year-old group. The highest unemployment rate of 70.8 percent will be experienced by Hispanic males who are 55-64 years old.

Employment projected by occupation is expected to increase 9.1 percent from 171,560 in 1984 to 187,210 in 1990. Service occupations will experience the largest growth of 15.1 percent from 26,010 to 29,930. The occupation with the smallest growth rate will be operatives with a rate of 4.1 percent from 23,770 to 24,740.

Persons drawing unemployment benefits totaled 19,227 for the period of July 1, 1984, through December 31, 1984. Whites comprised 82.8 percent of the total, and females made up 50.3 percent of the total. Clerical and sales occupations had the greatest proportion

of the total with 28.3 percent. Farming, forestry, and fishing occupations had the smallest proportion of the total with 0.6 percent of the total.

The number of persons who were below the poverty level in 1983 was estimated to be 69,926 in Service Delivery Area 3. Whites made up 69.8 percent of the total or 48,936 persons. Blacks totaled 13,028 persons or 18.6 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 3 during 1984 totaled 2,999. The number of graduates continuing their education was 1,488 or 49.6 percent of the graduates. The approximate number entering the labor force was 1,307 or 43.6 percent. The number of dropouts during 1984 was 366.

The veteran population in Service Delivery Area 3 as of March 31, 1984, was 41,210. Vietnam era veterans numbered 12,440 or 30.2 percent of the total.

The annual average employment of all establishments in Service Delivery Area 3 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 126,737 with an average yearly wage of \$14,361. The average covered employment in the services industry was 27,723 with an average yearly wage of \$14,013.

SDA 4

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 4

Service Delivery Area 4 is located in the western part of east Tennessee. The area consists of 3,709 square miles, or 2,373,760 acres, and extends eastward from the Highland Rim almost 100 miles, bordering Kentucky on the north. The region goes from rolling hills in the western section to mountainous areas in the northern and eastern sections of the service delivery area.

The following counties comprise Service Delivery Area 4: Anderson, Blount, Campbell, Cumberland, Loudon, Morgan, Roane, and Scott. The cities of Crossville, Oneida, Oak Ridge, Loudon, and Maryville are the major centers for employment and retail outlets in the area. A number of persons commute to Knoxville from Service Delivery Area 4 for employment and retail purchases, because Knoxville joins the area on the east.

Natural resources are a big asset to the area with coal deposits in almost every county, but most abundant in the northern counties of the area. Oil and natural gas wells have been developed recently, and an increased effort is being made to locate more wells. Marketable timber is located in every county, but is more abundant in the northern counties where the land is more mountainous. Limestone and marketable natural rock are also found in the area.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 4

The economic picture for Service Delivery Area 4 improved during 1984. Total nonagricultural employment increased from 86,920 to 89,780 or 4.6 percent. Manufacturing employment increased from 33,370 to 35,230 or 5.6 percent. The manufacturing industries with the largest increases were nonelectrical machinery, electrical machinery, and primary metals. The only manufacturing decreases occurred in textiles and all other durable goods. Nonmanufacturing employment increased from 53,550 to 54,550 or 1.9 percent. The largest increases occurred in trade and all other manufacturing. The only decreases occurred in services and government.

Total population in Service Delviery Area 4 is projected to be 329,296 persons in 1985. Non-Hispanic whites will make up 96.5 percent or 317,935 persons. Non-Hispanic blacks will total 7,314 persons or 2.2 percent. Other races will comprise 0.5 percent or 1,747 persons, and Hispanics will number 2,300 persons or 0.7 percent. Males will make up 48.5 percent of the total population or 159,858 persons. Females will total 169,437 persons or 51.5 percent. The largest concentration of work-age persons is 51,307 in the 25-34 age group, which makes up 15.6 percent of the total. Persons 16-19 years old will total 23,388 or 7.1 percent.

The 1985 labor force will total 138,064 persons. Whites who are not of Hispanic origin will make up 96.7 percent of the total or 133,507 persons. Non-Hispanic blacks will be 3,007 persons or 2.2 percent of the total. Other races who are not Hispanic will total 656 persons or 0.5 percent. Hispanics will total 894 persons or 0.6

percent. Males will make up 60.1 percent of the total or 82,929 persons. Females in the labor force will total 55,135 persons or 51.5 percent of the total. The age group with the largest proportion of the labor force will be the 25-34 year olds with 27.7 percent of the total or 74,835 persons.

The unemployment rate for Service Delivery Area 4 is projected to be 9.0 percent in 1985. The unemployment rate for Non-Hispanic whites will be 8.8 percent. The unemployment rate for blacks who are not Hispanic will be 16.8 percent. Other races who are not Hispanic will experience an unemployment rate of 4.8 percent. Hispanics will have 7.9 percent of their total labor force unemployed. Males will have a higher unemployment rate of 9.1 percent compared to the 8.9 percent rate for females. The highest unemployment rate of 21.7 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of a significantly sized group will be 66.4 percent, experienced by black females who are 16-19 years old.

Employment projected by occupation is expected to increase 10.8 percent from 112,690 in 1984 to 124,900 in 1990. Service occupations will experience the largest growth of 13.2 percent from 12,100 to 13,710. The occupations with the smallest growth rate will be professional, technical, and kindred workers; and laborers, except farm with a rate of 9.9 percent.

Persons drawing unemployment benefits totaled 17,799 for the period of July 1, 1984, through December 31, 1984. Whites comprised 96.4 percent of the total, and females made up 53.5 percent of the total. Clerical and sales occupations had the greatest proportion of the total with 20.7 percent. Farming, forestry, and fishing

occupations had the smallest proportion of the total with 1.2 percent of the total.

The number of persons who were below the poverty level in 1983 was estimated to be 80,365 in Service Delivery Area 4. Whites made up 84.5 percent of the total or 67,943 persons. Blacks totaled 2,730 persons or 3.4 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 4 during 1984 totaled 3,608. The number of graduates continuing their education was 1,745 or 48.4 percent of the graduates. The approximate number entering the labor force was 1,497 or 41.5 percent. The number of dropouts during 1984 was 758.

The veteran population in Service Delivery Area 4 as of March 31, 1984, was 40,030. Vietnam era veterans numbered 12,520 or 31.3 percent of the total.

The annual average employment of all establishments in Service Delivery Area 4 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 83,354 with an average yearly wage of \$16,579. The average covered employment in the services industry was 11,081 with an average yearly wage of \$12,785.

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 5

Service Delivery Area 5 is composed of Bradley, Polk, Meigs, McMinn, and Monroe counties. Meigs County reaches farthest north and touches Roane County; Bradley and Polk counties reach south to the Georgia border.

Meigs, McMinn, and Bradley counties make up an area of ridges, hills, and valleys which generally run from northeast to southwest. Most of Polk and Monroe counties lie in the Cherokee National Forest.

Agricultural activities use at least 93 percent of the land in all the counties in this service delivery area. The forest land is defined as commercial forest, which includes all land that produces or is capable of producing crops of industrial wood that are used for timber. Forestry is the major agricultural land activity throughout these service delivery area counties. Agricultural products include soybeans, tobacco, and forage crops.

HIGHLIGHTS AND CONCLUSION SERVICE DELIVERY AREA 5

The economic picture for Service Delivery Area 5 improved during 1984. Total nonagricultural employment increased from 51,070 to 53,570 or 4.9 percent. Manufacturing employment increased from 24,400 to 26,320 or 7.9 percent. The manufacturing industries with the largest increases were transportation equipment, non-electrical machinery, and lumber. Nonmanufacturing employment increased from 26,670 to 27,250 or 2.2 percent. The largest increases occurred in transportation, communications, and public utilities; finance, insurance, and real estate; and services. The only decreases occurred in trade and all other nonmanufacturing.

Total population in Service Delivery Area 5 is projected to be 155,559 persons in 1985. Non-Hispanic whites will make up 95.5 percent or 148,509 persons. Non-Hispanic blacks will total 5,566 persons or 3.6 percent. Other races will comprise 0.4 percent or 655 persons, and Hispanics will number 830 persons or 0.5 percent. Males will make up 48.6 percent of the total population or 75,534 persons. Females will total 80,036 persons or 51.5 percent. The largest concentration of work-age persons is 24,316 in the 25-34 age group, which makes up 15.6 percent of the total. Persons 16-19 years old will total 11,546 or 7.4 percent.

The 1985 labor force will total 69,252 persons. Whites who are not of Hispanic origin will make up 95.4 percent of the total or 66,090 persons. Non-Hispanic blacks will be 2,499 persons or 3.6 percent of the total. Other races who are not Hispanic will total 301 persons or 0.4 percent. Hispanics will total 363 persons or 0.5

percent. Males will make up 58.3 percent of the total or 40,380 persons. Females in the labor force will total 28,872 persons or 41.7 percent of the total. The age group with the largest work-age concentration will be the 25-34 year olds with 27.0 percent of the total or 18,713 persons.

The unemployment rate for Service Delivery Area 5 is projected to be 9.8 percent in 1985. The unemployment rate for Non-Hispanic whites will be 9.7 percent. The unemployment rate for blacks who are not Hispanic will be 12.8 percent. Other races who are not Hispanic will experience an unemployment rate of 15.3 percent. Hispanics will have 16.7 percent of their total labor force unemployed. Males will have a lower unemployment rate of 9.2 percent compared to the 10.8 percent rate for females. The highest unemployment rate of 20.1 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of 64.4 percent will be experienced by other males who are 55-64 years old.

Employment projected by occupation is expected to increase 7.3 percent from 63,380 in 1984 to 67,980 in 1990. Service occupations will experience the largest growth of 12.9 percent from 6,630 to 7,480. The occupation with the smallest growth rate will be operatives with a rate of 5.7 percent from 16,830 to 17,790.

Persons drawing unemployment benefits totaled 6,900 for the period of July 1, 1984, through December 31, 1984. Whites comprised 92.8 percent of the total, and females made up 48.2 percent of the total. Structural work occupations had the greatest proportion of the total with 15.5 percent. Farming, forestry, and fishing

occupations had the smallest proportion of the total with 1.4 percent.

The number of persons who were below the poverty level in 1983 was estimated to be 35,790 in Service Delivery Area 5. Whites made up 83.3 percent of the total or 29,807 persons. Blacks totaled 1,739 persons or 4.9 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 5 during 1984 totaled 1,759. The number of the graduates continuing their education was 792 or 45.0 percent of the graduates. The approximate number entering the labor force was 769 or 43.7 percent. The number of dropouts during 1984 was 445.

The veteran population in Service Delivery Area 5 as of March 31, 1984, was 17,610. Vietnam era veterans numbered 5,830 or 33.1 percent of the total.

The annual average employment of all establishments in Service Delivery Area 5 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 48,255 with an average yearly wage of \$14,257. The average covered employment in the services industry was 5,161 with an average yearly wage of \$11,582.

SDA 6

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 6

Service Delivery Area 6 consists of Bledsoe, Grundy, Hamilton, Marion, Rhea, and Sequatchie counties, which are located in southeastern Tennessee. This is a scenic area made up of mountains, valleys, and the Tennessee River, which is a major source of energy and a recreational resource. This region is the heart of the great Tennessee Valley and is widely known for coal mining and timber reserves.

Service Delivery Area 6 attributes much of its growth for the past 50 years to the Tennessee Valley Authority, with its development of electrical energy and soil conservation programs which have helped area businesses expand.

The area is served by two interstate highways. Commuter patterns between counties have improved in the past 10 years, especially from the surrounding counties to Hamilton County, which contains 78.1 percent of the total population of this service delivery area. All counties in this area except Grundy border Hamilton County, helping make Chattanooga a financial and distribution center for the area. Dayton in Rhea County and South Pittsburg in Marion County are also growth areas in the service delivery area. Each county in the area has experienced some growth in business and commerce through the development of shopping centers, which provide more goods and services at the local level.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 6

The economy of Service Delivery Area 6 improved between 1983 and 1984. Total nonagricultural employment increased by 3,100 from 159,000 to 164,000, a change of 3.1 percent. Total manufacturing increased from 40,400 to 41,100 or 1.7 percent. The largest increases occurred in lumber; stone, clay, and glass; and apparel. Fabricated metal products and chemicals were the only manufacturing industries reporting decreases. Nonmanufacturing employment increased from 118,600 to 122,900 or 3.6 percent. Contract construction, trade, and services recorded the largest increases. The only decrease occurred in mining.

The 1985 population in Service Delivery Area 6 is expected to be 383,117. Whites who are not Hispanic will total 318,538 or 83.1 percent of the total. Non-Hispanic blacks will number 59,769 or 15.6 percent. Others, who are not hispanic will be 2,018 or 0.5 percent. Hispanics will total 2,791 or 0.7 percent. The work-age group making up the largest proportion of the total will be the 25-34 year olds. This group totals 63,019 or 16.4 percent of the total population. The 16-19 year olds will make up 7.4 percent of the total or 28,373 persons. Males will make up 48.0 percent of the total or 184,063 persons. Females will total 52.0 percent or 199,053.

The labor force will total 173,486 persons. Whites will make up 84.9 percent of the total or 147,234 persons. Blacks will number 24,333 or 14.0 percent. Others will be 0.5 percent or 782 persons. Hispanics will be 0.7 percent or 1,136 persons. Males will make up

57.4 percent of the labor force or 99,523. Female will comprise 42.6 percent or 73,963 persons.

The unemployment rate for Service Delivery Area 6 will be 7.4 percent. The unemployment rate for whites will be 6.6 percent, while blacks will experience an unemployment rate of 11.9 percent. Other races will have an unemployment rate of 7.3 percent. Hispanics will record an unemployment rate of 10.8 percent. Males will have an unemployment rate of 7.5 percent. Females will experience a slightly lower rate of 7.2 percent. The highest unemployment rate will be recorded by other males who are 16-19 years old.

Persons drawing unemployment insurance benefits in Service Delivery Area 6 totaled 21,496 between July 1, 1984, and December 31, 1984. The occupation with the largest percentage of claimants was clerical and sales. The occupation with the smallest percentage of the total claimants was farming, forestry, and fishing. Males comprised 51.6 percent of the total. Whites made up 72.9 percent of the total, and 64.5 percent of the total number had 9-12 years of education.

Employment projected by occupation is expected to increase from 184,670 in 1984 to 200,440 in 1990 or 8.5 percent. Service workers will experience the largest growth of 13.1 percent from 23,900 to 27,020. Crafts and kindred workers will show the smallest growth of 6.4 percent from 23,750 to 25,270.

The number of persons below the poverty level in Service Delivery Area 6 was estimated to be 82,945 during 1983. Whites numbered 49,279 or 59.9 percent. Blacks numbered 25,892 or 31.2

percent. Estimates for others and Hispanics were not available.

High school graduates totaled 4,097 in Service Delivery Area 6 in 1984. The percentage of these graduates continuing their education was 56.5 or 2,316 persons, while 34.1 percent entered the labor force or 1,397 persons. The area had 1,009 dropouts during 1984.

The veteran population of Service Delivery Area 6 as of March 31, 1984, was 46,020. Vietnam era veterans numbered 14,370 or 31.2 percent of the total.

The annual average employment of all establishments in Service Delivery Area 6 that were covered by the Tennessee Unemployment Insurance Law during 1983 was 132,090 with an annual average wage of \$15,187. The average covered employment in the services industry was 22,798 with an annual average wage of \$13,460.

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 7

Service Delivery Area 7 is located in the northeastern section of middle Tennessee. The area consists of 4,414 square miles, or 2,824,960 acres, and lies within three different physiographic regions. One section of the area lies within the Central Basin in the western portion and has an average elevation of about 500 feet. The Highland Rim, which constitutes less than 30 percent of the area, lies above the Central Basin. The remaining part of the area is atop the 2,000-to 3,500-foot high Cumberland Plateau.

The following counties comprise Service Delivery Area 7: Cannon, Clay, DeKalb, Fentress, Jackson, Macon, Overton, Pickett, Putnam, Smith, Van Buren, Warren, and White. The cities of Cookeville, McMinnville, and Sparta are the major centers for employment, retail outlets, and transportation.

Abundant natural resources in Service Delivery Area 7 range from coal deposits in the eastern section to zinc and limestone in the southern and western counties. Timber, another valuable resource, is abundant in all counties. A number of producing oil wells have been constructed recently, and an increased effort is being made to locate more oil and natural gas. Other resources, whose value would be difficult to measure, are the three large lakes in the area. A large number of tourists are attracted to the area because of the lakes. They are also a source of electrical power and transportation of commodities in and out of the area.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 7

Nonagricultural employment increased in Service Delivery Area 7 during 1984. The total increased from 56,950 to 59,410 or 4.3 percent. Most manufacturing industries recorded increases. The largest increases occurred in stone, clay, and glass, non-electrical machinery; and food and kindred products. The only decreases occurred in fabricated metals and leather products. Nonmanufacturing employment increased slightly from 29,830 to 30,300 or 1.6 percent. The largest increases occurred in contract construction and transportation, communications, and public utilities. Small decreases occurred in finance, insurance, and real estate and in government.

The 1985 population in Service Delivery Area 7 is expected to be 216,379 persons. Whites who are not Hispanic will make up 97.3 percent of the total population. Non-Hispanic blacks will be 1.7 percent of the total or 3,623. Other races will be 0.4 percent or 836 persons, and Hispanics will make up 0.7 percent or 1,415 persons. The largest work-age group is the 25-34 year-olds, which make up 15.0 percent or 32,362 persons. The 16-19 year-olds number 16,331 or 7.5 percent of the total population. Males make up 51.0 percent of the total population. Males make up 51.0 percent of the total population or 110,349 persons, while females comprise 49.0 percent or 106,029 persons.

The 1985 labor force in Service Delivery Area 7 is projected to be 95,968 persons. Non-Hispanic whites will number 93,461 or 97.4 percent of the total. Blacks who are not Hispanic will number 1,682

or 1.8 percent. Other races will total 279 or 0.3 percent. Hispanics of all races will make up 0.6 percent of the total or 547 persons. Males will be 57.3 percent of the labor force or 55,016 persons, and females will make up 42.7 percent or 40,952 persons.

The unemployment rate in Service Delivery Area 7 is expected to be 9.9 percent. The white unemployment rate will be 9.8 percent, while the black rate will be 14.4 percent. The rate for other races will be 12.0 percent, and Hispanics will be 5.9 percent. The unemployment rate for males will be 10.8 percent, and the rate for females will be 8.7 percent. The highest unemployment rate of 41.2 percent will be experienced by black males, 20-24 years of age.

Employment projected by occupation is expected to increase 6.6 percent by 1990. This change will be from 74,350 to 79,230. The largest increase of 13.0 percent will be in service workers, while the smallest increase of 3.1 percent will occur in operative occupations.

Persons registered as claimants in Service Delivery Area 7 numbered 16,917 between July 1, 1984, and December 31, 1984. Females comprised 55.0 percent of the total. The largest percentage of the claimants were in benchwork occupations and comprised 26.0 percent of the total. The smallest percentage of the claimants were in processing occupations and made up 1.0 percent of the total.

The number of persons below the poverty level in Service Delivery Area 7 was estimated to be 60,544. Whites totaled 52,143 or 86.1 percent of the total. Blacks made up 2.3 percent or 1,373 persons. Estimates for others and Hispanics were not available.

The veteran population in Service Delivery Area 7 as of March

31, 1984, totaled 21,410. Vietnam era veterans made up 30.0 percent of that number or 6,370 persons.

Service Delivery Area 7 had 1,959 graduates in 1984. The percent of graduates continuing their education was 41.0 percent of the total while the percent entering the labor force was 56.5. There were 412 dropouts in 1984.

The annual average employment of establishments covered by the Tennessee Unemployment Insurance Law was 54,389 in 1983 with an annual average wage of \$11,586. The annual average employment in the services industry was 5,959 with an annual average wage of \$10,780.

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 8

Service Delivery Area 8 is located in the northwest portion of middle Tennessee, bordered by south central Kentucky on the north and the Tennessee River on the west. Perry, Hickman, Maury, Marshall, and Rutherford counties make up the southern border. Macon, Smith, and DeKalb counties comprise the eastern border.

Service Delivery Area 8 consists of the following counties and their respective principal cities: Cheatham County, Ashland City; Dickson County, Dickson; Houston County, Erin; Humphreys County, Waverly; Montgomery County, Clarksville; Robertson County, Springfield; Sumner County, Gallatin; Stewart County, Dover; Trousdale County, Hartsville; Williamson County, Franklin; and Wilson County, Lebanon.

Service Delivery Area 8 is predominantly rural but differing in terrain from east to west. The eastern portion of this region boasts of purple-tinted hills and mountains covered with tall evergreens of many varieties. In contrast to this are the fertile, rolling plains in the west yielding abundant crops of tobacco, wheat, and soybeans.

Although this area was once considered an agricultural area, home of the largest dark-fired tobacco center in the world, Service Delivery Area 8 now flourishes with many businesses and industries. Adequate labor, TVA power, navigable waterways, rail and air connections, proximity to markets, and above average living conditions have brought many new industries to the area. These new industries have provided many jobs which have enhanced the quality of life to people in Service Delivery Area 8, as well as aided in the gradual decrease in unemployment and the increase in job security in the area.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 8

The economic picture in Service Delivery Area 8 improved from 1983 to 1984. Total nonagricultural employment increased from 90,460 to 99,590 or 10.1 percent. Manufacturing employment increased from 31,930 to 34,260 or 7.3 percent. The largest increases occurred in petroleum, textiles, food, and stone, clay, and glass. The only decreases in manufacturing employment occurred in tobacco, professional, scientific and controlling instruments; and non-electrical machinery. Nonmanufacturing employment increased 11.6 percent. Employment increased in all industries with the largest increases occurring in transportation, communications, and public utilities; contract construction; and finance, insurance, and real estate.

The 1985 population of Service Delivery Area 8 is expected to be 480,355. Non-Hispanic whites will total 428,113 or 89.1 percent of the total. Non-Hispanic blacks will be 45,179 persons or 9.4 percent. Others who are not Hispanic will make up 0.5 percent or 2,629 persons. Hispanics will number 4,434 or 0.9 percent. The number of 16-19 year olds will be 36,217 or 7.5 percent. Males will make up 49.5 percent of the total or 237,965 persons. Females will comprise 50.5 percent or 242,390 persons.

The 1985 labor force will total 213,361 persons. Non-Hispanic whites will number 193,715 persons or 90.8 percent. The number of non-Hispanic blacks will be 17,313 or 8.1 percent. Others who are not Hispanic will total 930 persons or 0.4 percent. Hispanics will total 1,402 or 0.7 percent. Males will make up 58.4 percent of the

labor force and total 124,554 persons. The number of females in the labor force will be 88,807 or 41.6 percent of the labor force.

The unemployment rate will be 6.6 percent. Whites will record a 6.1 percent unemployment rate. Blacks will experience a 10.9 percent rate. The unemployment rate for others will be 11.3 percent, and Hispanics will experience the highest overall rate of 12.9 percent. The unemployment rate of 5.9 percent for males will be considerably lower than the 7.5 percent rate for females. The 16-19 year olds will have the highest unemployment rate of 14.2 percent. The highest rate of 100.0 percent will be experienced by females of other races who are 65 and over. The next highest rate of 43.5 percent will occur in the 16-19 year old Hispanic female group.

Employment projected by occupation is expected to increase from 159,500 in 1984 to 172,330 or 8.0 percent. Service workers will experience the largest growth of 14.1 percent from 20,020 to 22,850. Professional, technical, and kindred occupations will show the smallest growth rate of 6.0 percent from 19,090 to 20,240.

Persons drawing unemployment insurance benefits in Service Delivery Area 8 during July 1, 1984, to December 31, 1984 totaled 21,520. Occupations with the largest percentages of the total were clerical and sales with 22.0 percent and services with 19.5 percent. Occupations with the smallest percentages of the total were farming, forestry, and fishing with 2.5 percent and processing with 2.7 percent.

The number of persons below the poverty level during 1983 in Service Delivery Area 8 was estimated to be 79,855. Whites

comprised 69.5 percent of the total or 55,586. Blacks numbered 10,247 persons or 12.8 percent. Estimates for others and Hispanics were not available.

Service Delivery Area 8 had 4,945 high school graduates in 1984. The number continuing their education was 2,588 or 52.3 percent of the graduates. The number entering the labor force was estimated to be 2,062 or 41.7 percent of the graduates. The area had 856 dropouts during 1984.

The veteran population of Service Delivery Area 8 as of March 31, 1984, was 48,650. Vietnam era veterans made up 35.0 percent of the total or 17,020 persons.

The annual average employment of all establishments in Service Delivery Area 8 covered by the Tennessee Unemployment Insurance Law during 1983 was 85,269 with an annual average wage of \$13,672. The average covered employment in the services industry was 11,405 with an annual average wage of \$11,828.

SDA 9

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 9

Service Delivery Area 9 consists of Nashville-Davidson County, which serves as the hub of economic activity for middle Tennessee, southern Kentucky, and northern Alabama. Since 1963, Nashville and Davidson County have been under a metropolitan charter that established a single government for both city and county. For this reason the names Nashville and Davidson County are frequently used synonymously in regard to economic and political issues, including labor force and population data.

Nashville owes much of its success as a major distribution center to its central location and transportation facilities. Overland travel is served by three important interstate highways and an efficient railway system. The Cumberland River serves as a vital link to the Ohio and Mississippi rivers. Geographic barriers to economic success do not appear to exist for Metropolitan Nashville.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 9

The economic picture for Service Delivery Area 9 improved during 1984. Total nonagricultural employment increased from 291,770 to 305,230 or 4.6 percent. Manufacturing employment increased from 46,670 to 47,910 or 2.7 percent. The manufacturing industries with the largest increase were primary metals, furniture, and apparel. The largest manufacturing decreases occurred in food and kindred products and electrical machinery. Nonmanufacturing employment increased from 245,100 to 257,320 or 5.0 percent. The largest increases occurred in contract construction and trade. The largest decreases occurred in all other nonmanufacturing and transportation, communication, and public utilities.

Total population in Service Delivery Area 9 is projected to be 506,773 persons in 1985. Non-Hispanic whites will make up 76.4 percent or 387,164 persons. Non-Hispanic blacks will total 111,909 persons or 22.1 percent. Other races will comprise 0.8 percent or 4,142 persons and Hispanics will number 3,563 persons or 0.7 percent. Males will make up 47.3 percent of the total population or 239,565 persons. Females will total 267,205 persons or 52.7 percent. The largest concentration of work-age persons is 91,969 in the 25-34 age group, which makes up 18.1 percent of the total. Persons 16-19 years old will total 38,543 or 7.6 percent.

The 1985 labor force will total 256,556 persons. Whites who are not of Hispanic origin will make up 79.4 percent of the total or 203,602 persons. Non-Hispanic blacks will be 49,541 persons or 19.3 percent of the total. Other races who are not Hispanic will total

2,035 persons or 0.8 percent. Hispanics will total 1,378 persons or 0.5 percent. Males will make up 54.0 percent of the total or 138,523 persons. Females in the labor force will total 118,024 persons or 46.0 percent of the total. The age group with the largest work age concentration will be the 25-34 year olds with 29.2 percent of the total or 74,835 persons.

The unemployment rate for Service Delivery Area 9 is projected to be 5.0 percent in 1985. The unemployment rate for Non-Hispanic whites will be 4.2 percent. The unemployment rate for blacks who are not Hispanic will be 8.5 percent. Other races who are not Hispanic will experience an unemployment rate of 2.5 percent. Hispanics will have 7.1 percent of their total labor force unemployed. Males will have a higher unemployment rate of 5.3 percent compared to the 4.6 percent rate for females. The highest unemployment rate of 13.5 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of 62.8 percent will be experienced by Hispanic males who are 65 and over.

Employment projected by occupation is expected to increase 10.2 percent from 316,900 in 1984 to 349,320 in 1990. Service occupations will experience the largest growth of 14.2 percent from 45,830 to 52,330. The occupation with the smallest growth rate will be operatives with a rate of 7.9 percent from 42,690 to 46,060.

Persons drawing unemployment benefits totaled 23,884 for the period of July 1, 1984, through December 31, 1984. Whites comprised 53.8 percent of the total, and females made up 50.0 percent of the total. Service occupations had the greatest proportion of the total with 23.2 percent. Farming, forestry, and fishing occupations had

the smallest proportion of the total with 0.6 percent of the total.

The persons who were below the poverty level in 1983 was estimated to be 89,331 in Service Delivery Area 9. Whites made up 45.2 percent of the total or 40,421 persons. Blacks totaled 40,902 persons or 45.8 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 9 during 1984 totaled 3,881. The number of the graduates continuing their education was 2,706 or 69.7 percent of the graduates. The approximate number entering the labor force was 1,002 or 25.6 percent. The number of dropouts during 1984 was 670.

The veteran population in Service Delivery Area 9 as of March 31, 1984, was 61,270. Vietnam era veterans numbered 18,870 or 30.8 percent of the total.

The annual average employment of all establishments in Service Delivery Area 9 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 272,297 with an average yearly wage of \$16,559. The average covered employment in the services industry was 64,750 with an average yearly wage of \$15,726.

SDA 10

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 10

Service Delivery Area 10 is composed of Coffee, Moore, Franklin, Rutherford, Bedford, and Lincoln counties. Rutherford County borders Davidson and Wilson counties on the north. Both Lincoln and Franklin counties border the Alabama state line and are the southern boundaries of Service Delivery Area 10.

Natural resources are similar in all the counties in the area with much of the region's land devoted to agriculture. An abundant supply of limestone rock and phosphate continues to be important to this area. Water is another abundant resource. The Duck and Elk rivers are major contributors to the lakes and reservoirs in Service Delivery Area 10. The topography varies from low mountainous to gently rolling terrain.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 10

The economic picture for Service Delivery Area 10 improved during 1984. Total nonagricultural employment increased from 63,540 to 68,020 or 7.0 percent. Manufacturing employment increased from 21,630 to 25,480 or 17.8 percent. The manufacturing industries with the largest increases were chemicals, fabricated metals, and leather. The largest manufacturing decreases occurred in textiles; stone, clay, and glass; and lumber. Nonmanufacturing employment increased from 41,910 to 42,540 or 1.5 percent. The largest increases occurred in trade and finance, insurance, and real estate. The only decrease occurred in contract construction.

Total population in Service Delivery Area 10 is projected to be 232,692 persons in 1985. Non-Hispanic whites will make up 90.4 percent or 210,438 persons. Non-Hispanic blacks will total 19,512 persons or 8.4 percent. Other races will comprise 0.6 percent or 1,410 persons, and Hispanics will number 1,422 persons or 0.6 percent. Males will make up 48.9 percent of the total population or 113,803 persons. Females will total 118,889 persons or 51.1 percent. The largest concentration of work-age persons is 35,444 in the 25-34 age group, which makes up 15.2 percent of the total. Persons 16-19 years old will total 18,531 or 8.0 percent.

The 1985 labor force will total 109,228 persons. Whites who are not of Hispanic origin will make up 90.8 percent of the total or 99,165 persons. Non-Hispanic blacks will be 8,865 persons or 8.1 percent of the total. Other races who are not Hispanic will total 606 persons or 0.6 percent. Hispanics will total 591 persons or 0.5

percent. Males will make up 58.0 percent of the total or 63,362 persons. Females in the labor force will total 45,866 persons or 42.0 percent of the total. The age group with the largest work-age concentration will be the 25-34 year olds with 26.0 percent of the total or 28,405 persons.

The unemployment rate for Service Delivery Area 10 is projected to be 7.4 percent in 1985. The unemployment rate for Non-Hispanic whites will be 6.9 percent. The unemployment rate for blacks who are not Hispanic will be 12.1 percent. Other races who are not Hispanic will experience an unemployment rate of 14.4 percent. Hispanics will have 10.4 percent of their total labor force unemployed. Males will have a lower unemployment rate of 7.0 percent compared to the 7.9 percent rate for females. The highest unemployment rate of 17.0 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of 73.2 percent will be experienced by other males who are 65 and over.

Employment projected by occupation is expected to increase 8.1 percent from 98,690 in 1984 to 106,720 in 1990. Service occupations will experience the largest growth of 13.2 percent from 12,990 to 14,730. The occupation with the smallest growth rate will be crafts and kindred workers with a rate of 6.9 percent from 11,690 to 12,490.

Persons drawing unemployment benefits totaled 19,070 for the period of July 1, 1984, through December 31, 1984. Whites comprised 81.2 percent of the total, and females made up 52.0 percent of the total. Clerical and sales occupations had the greatest proportion of the total with 23.7 percent. Farming, forestry, and fishing

occupations had the smallest proportion of the total with 1.2 percent.

The number of persons who were below the poverty level in 1983 was estimated to be 46,165 in Service Delivery Area 10. Whites made up 73.3 percent of the total or 33,844 persons. Blacks totaled 5,076 persons or 11.0 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 10 during 1984 totaled 2,067. The number of graduates continuing their education was 1,031 or 49.9 percent of the graduates. The approximate number entering the labor force was 996 or 48.2 percent. The number of dropouts during 1984 was 418.

The veteran population in Service Delivery Area 10 as of March 31, 1984, was 25,810. Vietnam era veterans numbered 8,410 or 32.6 percent of the total.

The average employment of total establishments in Service Delivery Area 10 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 61,860 with an average yearly wage of \$14,913. The average covered employment in the services industry was 11,314 with an average yearly wage of \$16,513.

SDA 11

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 11

Eight counties extending from southern middle Tennessee to the Alabama border comprise Service Delivery Area 11. The area includes Giles, Hickman, Lawrence, Lewis, Marshall, Maury, Perry, and Wayne counties. Bounded by the Tennessee River on the west, the area has several rivers. Two natural resources are found in all the counties: sufficient water and good farm land. The smaller counties in the western portion of the service delivery area have an abundance of timber.

The principal city in the area is Columbia, which serves as a regional health and shopping center. Postsecondary educational facilities include Columbia State Community College, Martin College, and Area Vocational Technical schools in Pulaski and Hohenwald. Recreational facilities include Henry Horton State Park in Marshall County and David Crockett State Park in Lawrenceburg.

HIGHLIGHTS AND CONCLUSIONS
SERVICE DELIVERY AREA 11

The economic picture for Service Delivery 11 brightened during 1984. Total nonagricultural employment increased from 49,730 to 54,540 or 9.7 percent. Manufacturing employment increased from 23,920 to 27,510 or 15.0 percent. The manufacturing industries with the largest increases were electrical machinery, lumber, and furniture. The only manufacturing decreases occurred in leather and food and kindred products. Nonmanufacturing employment increased from 25,810 to 27,030 or 4.7 percent. The largest increases occurred in contract construction and all other nonmanufacturing. The only decrease occurred in government.

Total population in Service Delivery Area 11 is projected to be 181,241 persons in 1985. Non-Hispanic whites will make up 90.2 percent or 163,544 persons. Non-Hispanic blacks will total 16,152 persons or 8.9 percent. Other races will comprise 0.2 percent or 422 persons, and Hispanics will number 1,123 persons or 0.6 percent. Males will make 48.6 percent of the total population or 88,025 persons. Females will total 93,216 persons or 51.4 percent. The largest concentration of work-age persons is 26,073 in the 25-34 age group, which makes up 14.4 percent of the total. Persons 16-19 years old will total 13,190 or 7.3 percent.

The 1985 labor force will total 81,232 persons. Whites who are not of Hispanic origin will make up 90.8 percent of the total or 73,796 persons. Non-Hispanic blacks will be 6,881 persons or 8.5 percent of the total. Other races who are not Hispanic will total 184 persons or 0.2 percent. Hispanics will total 372 persons or 0.5

percent. Males will make up 57.7 percent of the total or 46,852 persons. Females in the labor force will total 34,380 persons or 42.3 percent of the total. The age group with the largest proportion will be the 25-34 year olds with 25.6 percent of the total or 20,762 persons.

The unemployment rate for Service Delivery Area 11 is projected to be 8.9 percent in 1985. The unemployment rate for Non-Hispanic whites will be 8.6 percent. The unemployment rate for blacks who are not Hispanic will be 12.8 percent. Other races who are not Hispanic will experience an unemployment rate of 16.1 percent. Hispanics will have 4.4 percent of their total labor force unemployed. Males will have a slightly lower unemployment rate of 8.9 percent compared to the 9.0 percent rate for females. The highest unemployment rate of 19.2 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of 100.0 percent will occur in other females 16-19 years old and other females 45-54 years old.

Employment projected by occupations is expected to increase 10.7 percent from 71,260 in 1984 to 78,878 in 1990. Service occupation will experience the largest growth of 14.6 percent from 7,320 to 8,390. The occupation with the smallest growth rate will be professional, technical, and kindred workers with a rate of 9.5 percent from 8,060 to 8,820.

Persons drawing unemployment benefits totaled 8,922 for the period of July 1, 1984, through December 31, 1984. Whites comprised 83.1 percent of the total, and females made up 56.5 percent of the total. Benchwork occupations had the greatest proportion of the total with 21.5 percent. Processing occupations had the smallest

total with 21.5 percent. Processing occupations had the smallest proportion of the total with 2.7 percent.

The number of persons who were below the poverty level in 1983 was estimated to be 41,251 in Service Delivery Area 11. Whites made up 73.9 percent of the total or 30,468 persons. Blacks totaled 6,739 persons or 16.3 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 11 during 1984 totaled 1,479. The number of graduates continuing their education was 490 or 33.1 percent of the graduates. The approximate number entering the labor force was 912 or 61.7 percent. The number of dropouts during 1984 was 314.

The veteran population in Service Delivery Area 11 as of March 31, 1984, was 18,810. Vietnam era veterans numbered 5,200 or 27.6 percent of the total.

The annual average employment of all establishments in Service Delivery Area 11 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 47,262 with an average yearly wage of \$13,211. The average covered employment in the services industry was 4,920 with an average yearly wage of \$10,902.

SDA 12

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 12

Service Delivery Area 12 encompasses over 7,000 square miles and includes 14 counties: Benton, Carroll, Chester, Crockett, Decatur, Gibson, Hardeman, Hardin, Haywood, Henderson, Henry, McNairy, Madison, and Weakley. The area is bound on the west by Obion, Dyer, Lauderdale, Tipton, and Fayette counties; the north by the Kentucky state line; the east by Stewart, Houston, Humphreys, Perry, and Wayne counties; the south by the Alabama and Mississippi state lines.

The area has a variety of natural resources that contribute to a diverse economy including limestone, chert, timber, rich farm land, and large rivers such as the Tennessee and Big Sandy. The farm land yields many crops including sorghum, soybeans, wheat, corn, cotton, strawberries, and grazing for livestock. Crockett County has several companies that together have the largest frozen vegetable capability in the south.

Employment in the area is provided by manufacturing as well as nonmanufacturing industries. Major manufacturing industries include the following: apparel, food, furniture, electrical machinery, fabricated metals, lumber and wood products, nonelectrical machinery, paper, textiles, and stone, clay, and glass. Nonmanufacturing employment is primarily in wholesale and retail trade, services, and government.

Camping, fishing, and other recreational facilities in the area are provided in part by several state parks: Chickasaw State Park, Nathan Bedford Forrest State Park, Natchez Trace State Park, Paris Landing State Park and Pickwick Landing State Park. Shiloh National Military Park is also located in Service Delivery Area 12.

HIGHLIGHTS AND CONCLUSIONS
SERVICE DELIVERY AREA 12

The economic picture for Service Delivery Area 12 improved during 1984. Total nonagricultural employment increased from 106,510 to 112,780 or 5.9 percent. Manufacturing employment increased from 43,410 to 46,760 or 7.7 percent. The manufacturing industries with the largest increases were transportation equipment, furniture, and chemicals. The largest manufacturing decreases occurred in all other durable goods and leather. Nonmanufacturing employment increased from 63,100 to 66,020 or 4.6 percent. The largest increases occurred in contract construction and services. The only decreases occurred in government and transportation, communication, and public utilities.

Total population in Service Delivery Area 12 is projected to be 429,283 persons in 1985. Non-Hispanic whites will make up 81.0 percent or 347,867 persons. Non-Hispanic blacks will total 76,700 persons or 17.9 percent. Other races will comprise 0.3 percent or 1,117 persons, and Hispanics will number 3,599 persons or 0.8 percent. Males will make up 47.9 percent of the total population or 205,797 persons. Females will total 223,486 persons or 52.1 percent. The largest concentration of work-age persons is 60,697 in the 25-34 age group, which makes up 26.4 percent of the total. Persons 16-19 years old will total 32,328 or 7.5 percent.

The 1985 labor force will total 184,042 persons. Whites who are not of Hispanic origin will make up 84.1 percent of the total or 154,695 persons. Non-Hispanic blacks will be 27,686 persons or 15.1 percent of the total. Other races who are not Hispanic will total

423 persons or 0.3 percent. Hispanics will total 1,238 persons or 0.7 percent. Males will make up 56.2 percent of the total or 103,439 persons. Females in the labor force will total 180,603 persons or 43.8 percent of the total. The age group with the largest proportion of the labor force will be the 25-34 year olds with 26.4 percent of the total or 48,673 persons. The number of 16-19 year olds in the labor force will be 13,827 or 7.5 percent.

The unemployment rate for Service Delivery Area 12 is projected to be 8.9 percent in 1985. The unemployment rate for Non-Hispanic whites will be 7.6 percent. The unemployment rate for blacks who are not Hispanic will be 16.1 percent. Other races who are not Hispanic will experience an unemployment rate of 10.6 percent. Hispanics will have 11.4 percent of their total labor force unemployed. Males will have a lower unemployment rate of 8.6 percent compared to the 9.3 percent rate for females. The highest unemployment rate of 18.1 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of a significantly sized group will be 34.0 and will be experienced by black females 16-19 years old.

Employment projected by occupation is expected to increase 7.3 percent from 141,860 in 1984 to 152,230 in 1990. Service occupations will experience the largest growth of 12.8 percent from 15,800 to 17,820. The occupation with the smallest growth rate will be operatives with a rate of 5.7 percent from 32,850 to 34,730.

Persons drawing unemployment benefits totaled 26,498 for the period of July 1, 1984, through December 31, 1984. Whites comprised 69.5 percent of the total and females made up 52.8 percent of the

total. Clerical and sales occupations had the greatest proportion of the total with 18.3 percent. Farming, forestry, and fishing occupations had the smallest proportion of the total with 2.0 percent.

The number of persons who were below the poverty level in 1983 was estimated to be 115,607 in Service Delivery Area 12. Whites made up 57.0 percent of the total or 65,851 persons. Blacks totaled 39,263 persons or 34.3 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 12 during 1984 totaled 4,058. The number of the graduates continuing their education was 1,901 or 46.8 percent of the graduates. The approximate number entering the labor force was 1,771 or 43.6 percent. The number of dropouts during 1984 was 804.

The veteran population in Service Delivery Area 12 as of March 31, 1984, was 39,710. Vietnam era veterans numbered 10,600 or 26.7 percent of the total.

The annual average employment of all establishments in Service Delivery Area 12 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 101,771 with an average yearly wage of \$12,449. The average covered employment in the services industry was 11,572 with an average yearly wage of \$11,609.

SDA 13

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 13

Service Delivery Area 13 encompasses almost 2,200 square miles and is composed of five counties: Dyer, Lake, Lauderdale, Obion, and Tipton. Service Delivery Area 13 is bound on the west by the Mississippi River; on the north by the Kentucky state line; on the east by Weakley, Gibson, Crockett, and Haywood counties; and on the south by Fayette and Shelby counties. All counties in the area except Obion were designated labor surplus areas by the Department of Labor in October 1984.

The land in the area is gently rolling and is rich in delta soil. Large quantities of soybeans, wheat, corn, and cotton are produced. Livestock is also a source of income.

Employment in the area is provided by many industries: apparel, fabricated metals, food, furniture, rubber, and transportation equipment. Nonmanufacturing employment is centered in wholesale and retail trade, government, and services. Recreational facilities are provided in part by Reelfoot Lake in Lake county.

HIGHLIGHTS AND CONCLUSIONS SERVICE DELIVERY AREA 13

The economic picture for Service Delivery Area 13 improved during 1984. Total nonagricultural employment increased from 35,880 to 38,060 or 6.1 percent. Manufacturing employment increased from 16,500 to 17,820 or 8.0 percent. The manufacturing industries with the largest increases were electrical machinery, furniture, and fabricated metals. The only manufacturing decreases occurred in apparel and all other nondurable goods. Nonmanufacturing employment increased from 19,380 to 20,240 or 4.4 percent. The largest increases occurred in services and contract construction. The only decrease occurred in all other nonmanufacturing.

Total population in Service Delivery Area 13 is projected to be 159,496 persons in 1985. Non-Hispanic whites will make up 80.3 percent or 127,282 persons. Non-Hispanic blacks will total 29,427 persons or 18.6 percent. Other races will comprise 0.3 percent or 548 persons, and Hispanics will number 1,239 persons or 0.8 percent. Males will make up 48.3 percent of the total population or 76,574 persons. Females will total 81,293 persons or 51.7 percent. The largest concentration of work-age persons is 23,078 in the 25-34 age group, which makes up 14.6 percent of the total. Persons 16-19 years old will total 11,613 or 7.3 percent.

The 1985 labor force will total 65,839 persons. Whites who are not of Hispanic origin will make up 84.1 percent of the total or 55,398 persons. Non-Hispanic blacks will be 9,733 persons or 18.6 percent of the total. Other races who are not Hispanic will total 209 persons or 0.3 percent. Hispanics will total 499 persons or 0.8

percent. Males will make up 57.5 percent of the total or 37,838 persons. Females in the labor force will total 28,001 persons or 42.5 percent of the total. The age group with the largest proportion of the labor force will be the 25-34 year olds with 26.6 percent of the total or 17,501 persons.

The unemployment rate for Service Delivery Area 13 is projected to be 8.1 percent in 1985. The unemployment rate for Non-Hispanic whites will be 6.9 percent. The unemployment rate for blacks who are not Hispanic will be 14.7 percent. Other races who are not Hispanic will experience an unemployment rate of 18.2 percent. Hispanics will have 8.3 percent of their total labor force unemployed. Males will have a lower unemployment rate of 8.0 percent compared to the 8.3 percent rate for females. The highest unemployment rate of 16.0 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of a significantly sized group will be 27.1 percent and will be experienced by black females who are 16-19 years old.

Employment projected by occupation is expected to increase 6.0 percent from 49,820 in 1984 to 52,820 in 1990. Service occupations will experience the largest growth of 12.1 percent from 5,270 to 5,900. The occupation with the smallest growth rate will be laborers, except farm, a rate of 2.5 percent from 4,080 to 4,180.

Persons drawing unemployment benefits totaled 10,514 for the period of July 1, 1984, through December 31, 1984. Whites comprised 73.5 percent of the total, and females made up 53.2 percent of the total. Clerical and sales, and machine trades occupations had the greatest proportion of the total with 17.4 percent. Farming,

forestry, and fishing occupations had the smallest proportion of the total with 2.6 percent of the total.

The number of persons who were below the poverty level in 1983 was estimated to be 43,523 in Service Delivery Area 13. Whites made up 53.0 percent of the total or 23,077 persons. Blacks totaled 16,593 persons or 38.1 percent. Estimates for other races and Hispanics were not available.

The number of known high school graduates in Service Delivery Area 13 during 1984 totaled 1,642. The number of the graduates continuing their education was 764 or 46.5 percent of the graduates. The approximate number entering the labor force was 754 or 45.9 percent. The number of dropouts during 1984 was 294.

The veteran population in Service Delivery Area 13 as of March 31, 1984, was 13,630. Vietnam era veterans numbered 3,990 or 29.3 percent of the total.

The annual average employment of all establishments in Service Delivery Area 13 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 34,512 with an average yearly wage of \$14,261. The average covered employment in the services industry was 3,684 with an average yearly wage of \$11,308.

SDA 14

DESCRIPTION OF THE AREA
SERVICE DELIVERY AREA 14

Service Delivery Area 14, which encompasses 1,477 square miles, consists of Shelby and Fayette counties located in southwest Tennessee. The service delivery area is bordered on the north by Tipton and Haywood counties, on the east by Hardeman County, on the south by the state of Mississippi, and on the west by the Mississippi River, which separates the area from the state of Arkansas. Shelby County is an urban center; Fayette County is basically rural in character.

In 1980 the population of the service delivery area was 802,400; the population of Shelby County was 777,100 compared to 25,300 persons in Fayette County. Shelby County with 52.3 percent of the land area had 96.8 percent of the population. The service delivery area had 17.5 percent of Tennessee's total population. The largest city in the service delivery area is Memphis, which had a population of 846,200 in 1980; this was 80.5 percent of the service delivery area population.

The economy of the area is diversified, but part of the labor force is underused because of the lack of enough semi-skilled jobs in the manufacturing sector. The industries with the largest number of employees are trade, services, and government.

HIGHLIGHTS AND CONCLUSIONS
SERVICE DELIVERY AREA 14

The economic picture for Service Delivery Area 14 improved during 1984. Total nonagricultural employment increased from 343,050 to 361,170 or 5.3 percent. Manufacturing employment increased from 49,530 to 51,750 or 4.5 percent. The manufacturing industries with the largest increases were electrical machinery, nonelectrical machinery, and furniture. The only manufacturing decrease occurred in all other nondurable goods. Nonmanufacturing employment increased from 293,520 to 309,420 or 5.4 percent. The largest increases occurred in all other nonmanufacturing, construction, and transportation, communications, and public utilities. The only decrease occurred in government.

Total population in Service Delivery Area 14 is projected to be 871,841 persons in 1985. Non-Hispanic whites will make up 55.8 percent or 494,894 persons. Non-Hispanic blacks will total 362,750 persons or 41.6 percent. Other races will comprise 0.7 percent or 5,898 persons and Hispanics will number 8,299 persons or 1.0 percent. Males will make up 47.8 percent of the total population or 416,767 persons. Females will total 455,073 persons or 52.2 percent. The largest concentration of work-age persons is 153,648 in the 25-34 age group, which makes up 17.6 percent of the total. Persons 16-19 years old will total 70,907 or 8.1 percent.

The 1985 labor force will total 390,203 persons. Whites who are not of Hispanic origin will make up 63.7 percent of the total or 248,525 persons. Non-Hispanic blacks will be 136,250 persons or 34.9 percent of the total. Other races who are not Hispanic will

total 2,552 persons or 0.7 percent. Hispanics will total 2,876 persons or 0.7 percent. Males will make up 54.8 percent of the total or 213,688 persons. Females in the labor force will total 176,515 persons or 45.2 percent of the total. The age group with the largest proportion of the population will be the 25-34 year olds with 30.7 percent of the total or 119,790 persons.

The unemployment rate for Service Delivery Area 14 is projected to be 6.8 percent in 1985. The unemployment rate for Non-Hispanic whites will be 3.6 percent. The unemployment rate for blacks who are not Hispanic will be 12.4 percent. Other races who are not Hispanic will experience an unemployment rate of 3.9 percent. Hispanics will have 10.9 percent of their total labor force unemployed. Males will have a lower unemployment rate of 6.3 percent compared to the 7.3 percent rate for females. The highest unemployment rate of 19.1 percent of any age group will occur in the 16-19 year old group. The highest unemployment rate of 39.4 percent will be experienced by black females who are 16-19 years old.

Employment projected by occupation is expected to increase 11.2 percent from 402,600 in 1984 to 447,630 in 1990. Service occupations will experience the largest growth with a 15.1 percent increase from 59,800 to 68,810. The occupation with the smallest growth rate will be crafts and kindred workers with a rate of 8.1 percent from 44,550 to 48,150.

Persons drawing unemployment benefits totaled 43,072 for the period of July 1, 1984, through December 31, 1984. Whites comprised 30.8 percent of the total, and females made up 53.6 percent of the total. Clerical and sales occupations had the greatest proportion

of the total with 18.8 percent. Farming, forestry, and fishing occupations had the smallest proportion of the total with 0.6 percent.

The number of persons who were below the poverty level in 1983 was estimated to be 245,374 in Service Delivery Area 14. Whites made up 19.1 percent of the total or 46,966 persons. Blacks totaled 179,280 persons or 73.1 percent. Estimates for other races and Hispanics were not available.

The number of high school graduates in Service Delivery Area 14 during 1984 totaled 8,549. The number of the graduates continuing their education was 5,882 or 68.8 percent of the graduates. The approximate number entering the labor force was 1,702 or 19.9 percent. The number of dropouts during 1984 was 1,579.

The veteran population in Service Delivery Area 14 as of March 31, 1984, was 93,480. Vietnam era veterans numbered 30,740 or 32.9 percent of the total.

The annual average employment of all establishments in Service Delivery Area 14 during 1983 that were covered by the Tennessee Unemployment Insurance Law was 303,322 with an average yearly wage of \$16,583. The average covered employment in the services industry was 70,825 with an average yearly wage of \$15,112.
